# 800 SERIES

**Brown 800 Series Hydraulic Brush Cutters are engineered to give you years of dependable service and performance.**

Brown 800 Series Hydraulic Brush Cutters are designed to be rugged machines that can handle heavy brush cutting and shredding. This machine is tough enough to cut heavy brush and trees up to six inches in diameter. The robust construction and balanced blade carrier keeps vibration to a minimum and the closed rear maximizes mulching of the material. The cutter comes in a 5' or 6' cutting widths. These cutters are equipped with reversible blades, powered by a high torque direct drive piston motor and bearing housing. We offer flows of 20-27 gpm or 35-47 gpm. These brush cutters require case drains.

- The Hydraulic Brush Cutter comes with one year limited warranty. Blades and hoses are not covered under the warranty.
