# FD60 High-Flow Forestry Disk Mulcher

## Maximize productivity and up-time

- Wide-angle intake promotes mulching and helps avoid jams
- Ultra-efficient drive system starts up fast and delivers tremendous power to the head
- MulchPower™ gauge provides dynamic operator feedback

## Minimize service time and costs

- Zero-maintenance bearing housing never needs to be greased
- Reinforced debris shovel keeps teeth out of the dirt and places material perfectly for optimal processing
- Interchangeable QUADCO teeth simplifies service and allows for tooth rotation to combat uneven wear patterns

## Flexible across applications

- Control debris projection with a two-position, adjustable deflector
- Removable debris shovel allows teeth to work below grade and provides easier processing of light brush
- Dual-function push bar smoothly pulls trees in on the right side, grabs to manipulate trees on the left side

## AGGRESSIVE FELLING AND PROCESSING

FELL UP TO  
**14 INCHES**

PROCESS UP TO  
**8 INCHES**

STUMP GRIND  
**TO GRADE**

## KEEPS TEETH SHARP

- **Reinforced debris shovel** gets under trees and logs, keeping edge teeth out of the dirt for maximum tool life
- **100% QUADCO teeth** offer superior cutting performance and simple service, with identical teeth on top, bottom, edge, and interior cutting surfaces
- **100% solid machined QUADCO disk** is a rigid, perfectly balanced tool holder that stores tremendous rotational energy, delivering a powerful punch and an ultra-smooth ride

## AGGRESSIVE, DURABLE HYDRAULICS

- **Tremendous mulching power** due to high tip-speed, high max RPMs, and heavy solid-steel QUADCO disk
- **Protection from unintentional debris damage**, like old fence wires, keeps components safe and helps you work with confidence
- **Zero-maintenance bearing housing** never needs to be greased, so you can stay focused on work, not maintenance
- **Incredibly smooth ride** because of perfectly matched and balanced components that minimizes vibration transfer to the host machine

## MAXIMIZE PRODUCTIVITY AND UP-TIME

- **MulchPower™ Gauge** shows when maximum rotational energy is stored in the disk, so you'll hit trees with full force
- **Wide-angle intake** creates a damming effect on top of the disk, instead of funneling into the throat, to discourage jams and stalls
- **Ultra-efficient drive system** helps recover speed quickly, for maximum up-time

# PALADIN OFFERS A FULL RANGE OF COMPACT ATTACHMENTS

## **GROUND SHARK XD BRUSH CUTTERS**

Bradco's Extreme-Duty Ground Shark Brush Cutter is designed to clear medium- to heavy-density brush and hardwoods up to 7" in diameter.

## **MM SERIES DRUM MULCHER**

Bradco MM Series Drum Mulchers create a fine chip and leave a manicured finish that decomposes quickly, leaving a site that is ready for immediate use.

## **MX SERIES BRUSH CUTTER**

MX Series facilitates a variety of applications, including over-fence brush management, embankment and ditch management, and rail right-of-way management.

## **and More...**

Delivering specialized solutions to enhance your excavators, CustomWorks can help standard machines tackle the most rugged applications. CustomWorks can modify your newly purchased or current equipment at one of four convenient locations, or ship the necessary parts and kits directly to the dealership.
