# Single Auger Snowblowers

MK Martin's Meteor series 3PH snowblowers are built to get your work off the ground with durable performance and high-capacity design. The Meteor lineup is available in a range of models for 12 HP compact tractors to 20 HP farm tractors. Meteor snowblowers are available in single auger, double auger, pull type, and skidsteer models.

<b>SB120DF</b>	150-200	1 3/8" 21 Spline	1,000

### **3PH / Quick Attach**

All models are built standard with 3 point hitches in Category 1 or Category 2, and are Quick Attach compatible.

### **Five Blade Fan**

The Meteor five blade fan is ruggedly designed and built to quickly and consistently blow the snow out of the chute.

### **Gear Box**

The heart of Meteor's power train is the time-proven Comer gearbox.

### **Skid Shoes**

Adjustable skid shoes are included with all snow blowers to protect your surface and your blower.

### **1000 RPM PTO Kit**

Available for 97D, 108D, and 120D models, this kit allows larger tractors to run at 1000 RPM PTO. The 1000 RPM Kit also raises the input shaft to allow the PTO shaft to run at a lesser angle on larger tractors increasing the efficiency and life of the driveline components.

*PTO shaft not included.*

### **High Tensile Steel Ribbon Flighting**

To make sure you get the longest dependable service from your blower all Meteors have the highest quality High Tensile Steel Ribbon flighting on the auger providing strength to move the snow to the fan.

# Pull Type Snowblowers

## Optional Equipment

- Hydraulic/manual chute rotators
- Back drag (manual or hydraulic)
- Back drag (manual or hydraulic)
- Tivar contact surfaces

## **Chute Rotator**

Meteor Snow Blower chute rotators come in manual (crank), hydraulic (orbital motor), and electric.

## **Multi-Hinged Deflector**

Meteor's Multi Hinged Deflector provides you with finer control over where your snow is blown.

*Cylinder not included.*

## **Truck Loading Chute**

- Provides up to 40" of additional height
- Hydraulic Rotation
- Hydraulic Multi-Hinged Deflector

## **Hydraulic Chute Deflector**

Exit chute deflectors are available in manual or hydraulic (optional).

*Includes the cylinder and the hoses.*

Cutting Edge	3/8 x 1"	
Auger Diam.	14"	
Fan Diam.	21"	
Chute Diam.	8"	
Chute Rotation	Hyd.	
Chute Deflector	Manual	
Body Height	25"	
Drive	Belt drive	
Mount	Steiner/Ventrac	
Weight (LBS.)	475	488

### Belt Drive

### Hydraulic Chute Rotate

### Steiner/Ventrac Mount

The hydraulically driven rotary cutter was designed for mowing grass and light brush, up to 2" in diameter. Available in 60" and 72" cutting widths the skidsteer mount cutter can cut almost any desirable height. With the standard 3 blades on the blade bar coupled with our unique float linkage, the rotary cutter follows the contour of your cutting area.

## FEATURES

- Maximum brush diameter 2"
- 3 blade cutting assembly
- Integrated push bar
- Relief valve for protection
- Chain curtain
- Floating linkage allows the cutter to follow ground contour

# 3PH Rotary Cutters

The PTO powered rotary cutters provide excellent mowing and shredding performance for tractors rated between 20-50 HP. The 3PH mount models are available in a variety of cutting widths, providing a cutting path from 48" - 72". To better adapt to your conditions, the rotary cutter features an adjustable cutting height of 2" - 10" and a floating top link. This combination allows you to get the ideal cut for your field or roadside.

# 3PH Rotary Cutters Plus

The rotary cutter for tractors comes rated between 30 - 80 HP. This updated mower features not only Category 1, but also Category 2 and Quick Tach mounting options to fit your equipment. With a cutting path ranging from 60" - 120", and a cutting height of 2" - 10" with the standard floating top link, this mower will get the job done the first time. To ensure even cutting and shredding every time, the deck is outfitted with 3 blades covering more area on each pass.

# Rotary Cutters - Wing

The Rotary Cutter - Wing is available in a 15' model, the three triple blade assemblies make short work of stubble — whether in the pasture, field, or brush. Each wing can independently float 22° down and 33° up to conform to the contours of the ground. The 15' width of the cutter can be greatly reduced by folding up both hydraulic wings to better transport from one field to another, and to store the cutter in tight spaces.

## Features & Options

- 15' dual wing rotary cutter
- 4 heavy duty gearboxes, each covered with 7 Year limited warranty
- Transport lock for each wing
- 1.5" diameter cutting capacity
- Each wing can float to conform to ground contours

Model	PW180
Shipping Weight (LBS.)	4,400
3PH Mount	Draw Bar Hitch
Cutting Height	3"-15"
Cutting Path	180"
Max Brush Diameter	1.5"
Overall Width (Wings Down)	184"
Folded Width (Wings Up)	78"

# Finishing Mowers

The MK Martin Finishing Mower is available for a wide variety of lawn mowing applications. Available in four sizes, there is a size to fit your mowing needs. Riding on four solid rubber tires, the Finishing Mower floats smoothly over your lawn without worry of flat tires. A floating top link ensures that all four wheels keep contact with the ground as your 3PH equipped tractor pulls it along.

# Trail/UTV Mower

UTVM48

## Remote e-Stop

Cabled e-Stop can be placed on tow vehicle for easy reach. (UTVM48 Only)

## Features

- 44" - 48" Cutting Width
- Briggs & Stratton Engines
- 12 Volt electric start (UTVM48 Only)
- Remote e-Stop (UTVM48 Only)
- 2 Rotors with 3 blades each
- Adjustable cutting height (2" - 7") with ratchet style adjustment
- 3 position hitch for straight or offset cutting
- Flat free tires
- Swivel wheels on front, fixed wheels on rear (UTVM48 Only)

**NEW**  
PRODUCT

Tame your property using the MK Martin UTV mowers. Both UTV mower models are self-powered with reliable Briggs & Stratton engines, giving you the power you need to run without needing a PTO or hydraulic hookup.

The mowers are equipped with two 3-blade rotors, cutting through tall grass and weeds without a problem. Flat free tires help maintain consistent travel height and prevent downtime from blowouts when working in rough areas.

Broom Lift	12V Electric
Hopper Capacity	21 Cu.Ft.
Wheels	13x5.00-6 NHS Flat Free Tires
Weight (LBS.)	515

## Features

- Electrically Controlled Poly Broom with Remote
- Leaf Bucket with Pivot for Easy Emptying
- Replaceable Durable Mesh Netting
- Flat Free Tires
- 6.5 HP Vanguard Engine

## Height Adjustment

Height Adjustment is controlled with a switch box with a magnetic base for easy mounting to your tow unit.

# Axis Tool Arm

The Axis Tool Arm has been developed to provide an economical alternative for mowing road side ditches or along side fences. Offset design allows plenty of room to clear the tractor tires, as well as keeping the tractor on a more level surface. Should you hit a solid object with the outer edge of the tool attached to the arm, the Axis Tool Arm is equipped with shear bolt protection on a breakaway link. With a 55° cutting angle with the cylinder extended, and 90° cutting angle with the cylinder retracted, the operator has ample flexibility to match whatever terrain they are working with.

## Hydraulic Tool Lift

The Axis Tool Arm hydraulically pivots on your 3PH raising and lowering the tool as needed. With the Axis fully raised the mower can be folded in to provide safe road travel.

## Hydraulic Tool Rotation

To provide the best results when mowing along ditches or around ponds, the tool carrier is hydraulically adjustable allowing mower adjustments to match the terrain grade.

## Transport Lock

## Retractable Weight Bar

Model	AXIS4	AXIS5-6
Weight (LBS.)	751	900

## Stabalizer Arm to Cutter

Various attachment bracket are supplied with the Axis Toolbar to attach the Stabilizer Bar to the cutter. All four adaptors are included.

**Shown in order:** Pulsar, Kodiak, Fork Rear Wheel Style with 180° Wheel Adjuster, Fork Rear Wheel Style with Flat Wheel Adjuster

# 3PH Box Blades

The 3PH Box Scraper designed by MK Martin provides owners of small and large properties affordable options for land grading. Complete with steel cutting edges, height adjustable shanks, quick hitch compatibility, and a fully welded 3PH design, these Box Scrapers deliver impressive results.

The MK Box Scraper features two steel cutting edges. One is located on the inside of the box and the second is on the outside. These two reversible hardened steel cutting edges allow the operator to pull or push material.

## Height Adjustable & Replaceable Scarifier Tips

The height adjustable ripper shanks break up the soil allowing the cutting edge to redistribute the material as the box scraper is pulled along. Removeable shanks feature replaceable scarifier tips.

Groom your track or arena surface with the MK Martin Track-Curry. This easy to use tool will allow conditioning of track surfaces to your desired firmness. With two rows of heavy duty S-tines to cultivate the ground, an adjustable leveling bar fastened to the rear of the S-tines, and a 12" rolling drum behind the leveling bar, the Track-Curry provides an accurate depth gauge to cultivate and pack your soil for optimum performance. The MK Martin Track-Curry will condition your arena or track to the footing most suited for the health and safety of your horses.

# Grader Blades

*Shown with optional Hydraulic Angle blade*

## Features

- 1/2" x 6" reversible cutting edge
- Full turn around with five locations forward and reverse on manual only
- 3/8" mouldboard - 98 series
- Hydraulic Angle (optional)
- Quick hitch compatible

The 3PH Grader Blade from MK Martin makes maintaining your driveway and gravel areas easy. Ruggedly built with a reversible cutting edge, these blades are designed for years of service.

The Manual Blades have five stops of angle adjustment including a full turn around, while the optional Hydraulic Angle blades allow control of the blade from the comfort of your seat. With widths to match your equipment and property, there is an MK Scraper blade to help keep your grades up.

# Offset Tilt Grader Blades

## Features

- Angle Manual Adjustment
- Offset Manual Adjustment
- Tilt Manual Adjustment
- 180° Reversible
- Bolt-On Cutting Edge
- Park Stand
- Rubber Cutting Edge

Available in 5, 6, and 7 foot widths, this versatile grader blade is designed for tractors equipped with Cat 1 3PH. This grader blade features offset, tilt, and angle adjustments each with 5 positions allowing it to tackle any job you can throw at it. The blade is also able to reverse 180° allowing you to grade your property while backing up for even more options.

## Extreme Duty Grader Blade for 100-150 HP Tractors

The Extreme Duty Grader Blade from MK Martin mounts to your 3-point tractor hitch. Powered by the hydraulics of your tractor, the XD series blade has hydraulic cylinders to adjust the offset of the arm, blade angle, and tilt of the blade. An additional hydraulic cylinder on the optional wheel kit helps with depth control. The Extreme Duty grader blade is available in 8', 9' and 10' models for tractors with a rated horsepower of 100 and 150 HP. Available options include dual gauge wheel kit with hydraulic cylinder.

Hydraulic Offset

# Grader Levelers

This two-in-one combination of leveling and scraping makes short work of your grading jobs. The first blade attacks the high spots cutting them down to size and the second blade further scrapes anything the first missed and fills in the hollows. With two blades cutting and filling it takes much less time and fewer passes to achieve the even distribution of material you are looking for.

The scraper can be 3PH mounted, or equipped with a skidsteer adapter plate to keep the work in front of you.

# Land Planes

Designed to revive your laneway or gravel lots, the Land Plane provides acreage owners with a single tool to tear up hardpack, fill potholes, and grade for a smooth, desirable finish.

Two hydraulic cylinders power the scarifier bar deep below the surface, loosening the hard pan and pulling the material to the surface where it can be redistributed. The hydraulic control allows the operator to adjust pressure on-the-fly to compensate for the changing ground conditions without having to leave the operator's seat.

The Land Plane is available in either skid loader or 3PH mounts.

## LAND LEVELER

These rugged scrapers come in a range of sizes from 8'-12' to fit your needs and equipment. Standard on all models is our 1/2" thick reversible hardened cutting edge, ready to smooth out the bumps and fill in the hollows. Cutting depth is controlled by a 3"x12" hydraulic cylinder so you can decide how much of a bite to take and adjust on the go. All models are well suited for feedlot and soil reclamation or swale cutting.

# 3PH Weight Boxes

With an internal material holding volume of 3.5 cubic feet and maximum holding weight capacity of 525 lbs, this weight box can add up to 575 lbs of balancing weight to your CAT. 1 3PH. This added weight backs up your tractor by offsetting your loader mounted attachments, helping to keep your tractor safely balanced during operation. This weight box has a tool holder, clean out hatch, and a 2" hitch receiver.

Specifications	MKWB
Hitch Type	CAT. 1

## Center Dump

Part #	Description
<b>MKGW65CD</b>	Center Dump for 5000 & 6500

# Stack N Fold Toolbar

The Stack N Fold Toolbar from MK Martin is designed to provide safe and easy transport of Strip Cat strip till systems. By stacking both end sections over the center section, the Stack N Fold Toolbar quickly reduces the overall width providing easier transport from field to field. The over centre design and locking pins ensure that the end sections remain securely in place during travel and when in storage.

Stack N Fold Toolbars can be configured with 2 to 4 remotes allowing you to control each side of the toolbar separately. This allows for easier service and maintenance, as well as for custom operations when you may not need the full width of the Strip Cat, such as on headlands and point rows.

## Features

- Available from 8-Row to 18-Row
- Allows for parallel horizontal stacking of row units
- Ideal for transport and storage
- Equipped with 2 large cylinders (5x30 fold cyl.)
- Equipped with 2 small cylinders (2x4)
- Requires 2 to 4 remotes depending on configuration

The MK Disc Mower Implement Caddy transforms your 3PH disc mower into a pull-type unit to help reduce wear on the mower while reducing stress from your tractor. Using the adjustable top link, you can connect your disc mower faster and easier than before. With the addition of the adjustable hitch, you can level your caddy and mower for an even cut as you drive along.

The MK Disc Mower Implement Caddy comes in two models: inline (C1201) and offset (C1200).

Model	MKC1200	MKC1201
