

### CONSTRUCTION PRO™

**Built For Full Size Skid Steer Attachments, Mini-Excavator Buckets, & More!**

SKU: 400300

Optimize your job site organization with the Construction PRO Attachment Rack, the ultimate storage solution for construction and equipment rental businesses. Specifically engineered for standard size attachments and mini-excavator buckets, this innovative rack helps you keep your tools and equipment in prime condition while maximizing efficiency.

**Versatile Storage: Designed to accommodate:**

2 Standard Skid Loader Buckets: Keep your primary attachments close at hand and readily accessible.

**Multiple Mini-Excavator Buckets:** Store various sizes and types of buckets, ensuring you're always prepared for any task.

**Hand Tools for the Whole Crew:** Organize all essential hand tools in one convenient location, improving workflow and productivity.

**1 Set of Pallet Forks:** Easily secure your pallet forks for quick deployment as needed.

**Intelligent Design:** Featuring 2 Large Internal Shelves for additional storage, the Construction PRO Attachment Rack maximizes space while allowing you to store valuable equipment securely.

**Durable Construction:** Built with high-quality materials to withstand the rigors of everyday use on the job site, ensuring longevity and reliability.

**Space-Saving Organization:** Optimize your workspace and reduce clutter, making it easier to locate the right tool for the job.

Transform your equipment storage and organization with the Construction PRO Attachment Rack—a must-have for every construction professional looking to streamline operations and enhance efficiency on the job site. Elevate your equipment management today!
