

GRAPPLE PRO™

Built For Full Size Skid Steer Attachments

SKU: 400200

The absolute solution for construction professionals seeking efficiency and versatility in their operations. Built robustly to accommodate standard size attachments, the Grapple PRO stands out as a game-changer in storage racks designed specifically for heavy-duty tasks.

Engineered for those who tackle various jobs on-site, the Grapple PRO allows you to truly 'load and go' with unmatched convenience. Say goodbye to clutter and subpar storage options. This innovative attachment rack simplifies your workflow by enabling you to transport multiple essential tools and equipment in one trip, dramatically saving you valuable time, space, and effort.

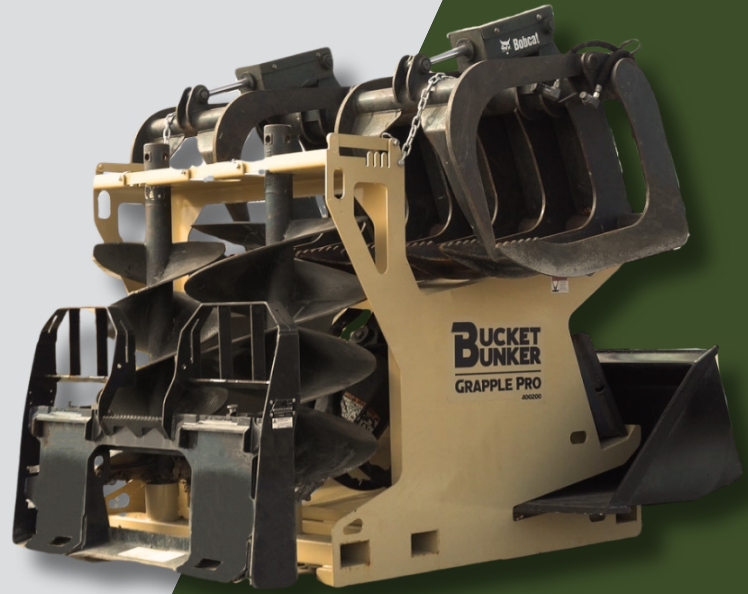

Large Capacity: Securely holds one grapple bucket or another large attachment on top, accommodating your biggest tools.

Versatile Storage: Includes designated space for one standard skid loader bucket and one auger drive or hydraulic breaker, ensuring you have all you need for the job at hand.

Auger Bit Storage: Efficiently stores up to three standard length auger bits (maximum diameter of 36 inches) for easy access without the hassle.

Pallet Forks Friendly: Comes with a dedicated slot for one set of pallet forks, enabling seamless transportation of materials.

Don't compromise your productivity with inefficient storage solutions. Upgrade to the Grapple PRO Attachment Rack and discover how it can transform your daily operations. Equip yourself with the right tools and enjoy the ease of organized transport, making your workday more efficient than ever. Experience the power of organized mobility with Grapple PRO - your ultimate partner in the field.
