Auger

Safety grate includes
integrated bag busters

1/2 yard capacity
(up to 3/4 yard with optional
hopper extension)

Skid-steer quick attach
mount on both sides
for left or right discharge

All buckets come standard with
two (2) 24" multi-link chutes

TRANSPORT, MIX, AND DISPENSE CONCRETE, WILDLIFE FEED, AGRICULTURAL GRAINS, GRAVEL, ASPHALT, AND MORE!

With a 1/2 yard base capacity (13.5 cubic ft.), and a 3/4 yard extended capacity (20 cubic ft.), the MAC Bucket replaces the manual labor of moving and mixing materials and is perfect for tight conditions where larger equipment is not ideal. This mixing and conveying (MAC) bucket features a skid-steer quick attach mount on both sides of the bucket, which allows for discharge from both the left and right sides. It is designed with no discharge gate and with the ability to self-load from loose piles, making the MAC Bucket a true one-person operation. All buckets come standard with two (2) multi-linked chutes (24" long) and two (2) 9' long hoses with flush-faced couplers (ISO 16028).

A HISTORY OF INNOVATION

Established in 1910, Danuser is a 4th generation, family owned and operated company. With decades of design and manufacturing experience, we build our products with reliability that they will last for generations. From our renowned auger system released in the mid-1940s to the more current designs, our commitment to our customers remains the same - to design and build products that are the benchmark of quality, reliability, and longevity.

In the words of our founder K.B. Danuser, "Good enough won't do - it must be right."

Danuser manufactures industrial and agricultural attachments for various applications, serving many industries worldwide. Please visit www.danuser.com to see our full line of attachments.
